"I've thoroughly enjoyed and benefited from hearing about previous work experiences and advice from my mentor, Teresita Batayola. It's very helpful to have a mentor who has worked in different organizations besides MultiCare to have objective, frank conversations about career and personal life. We have met twice so far, but have a regular monthly cadence through 2018. Teresita has already helped to continue to build my network outside of just coworkers. I look forward to continuing to build the relationship and exploring other topics around career development and growth. Without AHLF, I never would have met the great Asian-American healthcare leaders and role models we have in the Puget Sound."

Emily Law Yu, Director – Retail Clinics & Virtual Health, MultiCare

"One of the most rewarding aspects of the mentoring program has been the chance to serve as a mentor and a mentee at the same time. The roles inform and enrich each other when you're simultaneously both. In general, I think the mentorship program primarily buttresses the kinship and support that you hope to feel with this kind of group, beyond the usual advice-giving and wisdom-sharing. I've been grateful for the chance to participate."

- Vincent Chiu, Manager, Neuroscience Specialty Programs, Seattle Children's
